

# CUSTOM BUILDER COUNCIL

## Steering Committee Election

Each candidate will be provided two minutes to introduce themselves to you and what their thoughts are for the future. All members who wish to run need to notify Jorden Lefler by November 16<sup>th</sup>.

## Renovator Agenda Update - Education

The Education & Professional Development Committee has prepared a report on the existing Renovation Specific training available and what other jurisdictions are doing for certifications.

## Electrical Safety

Home Safe has 2 sayings:

1. If you had an electrical hazard in your home, wouldn't you want to know about it? And
2. Faulty wires cause fires. We stress the importance of thinking about your electrical system when you A. live in an older home B. Are experiencing flickering lights, tripped breakers, burning smells, shocks, arcs or have things that look unsafe etc. C. are renovating and will be re-wiring and adding to your existing system. Nothing lasts forever, including your electrical panel, breakers, plugs etc.

### Presenters:

Michael Neumann, former employee at ESA  
Colin Toop, Home Safe
