With Instructors Andy Oding of

**Date:** Tues-Fri January 14-18, 2019

**Location:** BILD Offices  
20 Upjohn, Toronto, ON

**Time:** 8:30 AM-4:30 PM

**Until January 1, 2019:**

**\$1800 + HST** HBA member early bird

**\$2100 + HST** non-member early bird

**Registration:** [www.enerquality.ca/training](http://www.enerquality.ca/training)

Climate change action plans and proposed home energy rating disclosure are making both builders and buyers aware of energy use. The industry is changing, building codes are changing, and construction methods are becoming more focused on GJ and a home's energy consumption.

**Stay up-to-date on building code and construction method changes affecting Canada's building industry.** Energy Advisor are authorized by Natural Resources Canada to conduct EnerGuide home evaluations and provide expert advice in the planning and designing stages of home construction.

This course is designed to prepare energy advisors for the EnerGuide Rating System version 15 Foundation Level and Energy Advisor exams. It is also the first step to becoming an Energy Advisor in the ENERGY STAR® for New Homes and Net Zero programs.

**Energy Advisors that have passed these exams can work in the Union Gas and Enbridge home retrofit programs, as well as complete EnerGuide Ratings on new homes.**

**Topics to be covered:** Applied Building Science • Residential Construction Materials and Techniques • Data Collection for new and existing homes • Math for Energy Advisors • On-site procedures including air tightness testing • Hot2000 v11 and the Report Generator

**This workshop satisfies OAA and OBOA and other Continuing Education Credits**
