

Members of the BILD York Chapter:

York Region has further updated the precautionary measures to their services amid the recent developments around COVID-19.

York Region is continuing to process and accept development applications through the Regions online forum [YorkTrax](#). In addition to this precautionary measure, the Region has since implemented the following:

- All staff, including construction inspection, can be reached for any inquiries by email or phone, using the contact list provided by the Region – [here](#).
- Development and construction resources continue to be accessible through the [Regions Website](#).
- Online payment is not available at this time – thus, the Region kindly asks for cheques to be sent through mail or courier outlining the file number and applicant name. Currently, York Region is looking into a drop-box approach for checks in addition to the mailing method.

York Region offices continue to be closed to the public until further notice. As of today, Council/Committee meetings for the remainder of March and early April are still continuing via [livestream](#) only. If this changes, the Region will be updating their [website](#) accordingly.

Members are encouraged to refer [BILD's website](#) for the most recent updates regarding the status and actions of any municipalities/regions as it pertains to your operations and bulletins/notices from our partner organizations. BILD staff is monitoring the situation closely and making updates as new information is made available.

For questions regarding York Regions COVID-19 approach, kindly contact:

Karen Whitney

Director of Community Planning & Development Services
